

## EXCITING NEWS!

Chance to expand Plaisted Preserve...

by rejoining the 7.5 acres of magical woodlands and lush wetlands that were once part of the original property.

Georges River Land Trust holds a conservation easement on the Plaisted Preserve

### The time to act is NOW

As a community, let us expand the experience at Plaisted, now at risk of being developed. The property has been listed with Sotheby's and is temporarily off the market to give the Town limited time to pursue.

Let's build upon what has already become an integral part of our community for hiking, nature exploration, learning about wilderness, and quiet contemplation.

**The OHCC, otherwise known as the Owls Head Conservation Commission, is a town appointed volunteer committee charged with keeping watch over the Town's natural resources.**

The OHCC, on behalf of the Town of Owls Head, must raise 150K or be well on our way by mid-October. **Your support is urgently needed.**
